Terrific Rain Stops Cars and
Washes Hole in
Wall.

BRAVE WOMAN USES PISTOL

Mrs. Dobbin Holds Up Negroes
at Revolver's Point—Se-
cures Warrant.

(Manchester Bureau, Times-Dispatch.)
No. 1102 Hull Street.
The terrific rain that fell yesterday afternoon washed out a big hole in the wall of the new building being erected on Tenth and Hull Streets. The cavity is about five by six feet at its broadest, near the base. On Fourteenth and Hull, the cars were forced to stop running, as the water had reached to such a height that the machinery of the cars was very much interfered with. At the junction of the two culverts on Fourteenth and Hull, the water rose to the sill of Moore's saloon and overflowed into Dowdy's store, next door, and into Pacini's store, on the opposite corner. From Tenth Street, the water rushed down Hull Street in a raging torrent. It was said to have been the worst seen in many years.

Thieving Continues.
Two colored boys went into T. B. Cheatham's store yesterday morning and under the pretense of dealing to make some purchase, managed to get away with \$6. While one was making the pretended purchase, the other slipped behind the counter, opened the cash drawer and took \$6 into his pocket. The thieves got away, but their apprehension will occur probably very soon.

The Children Seen.
The three little children who escaped Thursday afternoon from the Children's Home Society, in Richmond, were seen at the home of their parents, at 1000 North Main Street, yesterday afternoon. The children were seen by some members of the police force. Anyone harboring fugitives of this kind is liable by law to a fine or imprisonment.

Promises to Work.
James Glass, who was on trial yesterday morning for non-support of his family, was found guilty and sentenced to twelve months by the jury in the Corporation Court. However, as Glass promised to reform and go to work and keep his family, the judge, Judge W. A. Lee, released him. Glass must keep his promise to comply with the law or he will lay himself open to rearrest and enforcement of his sentence.

W. H. Young, who was on trial in June, was acquitted and the case of Orrin Belcher was nolle prosequed.

Plucky Woman Uses Pistol.

Mrs. W. J. Dobbin last night at nearly 10 o'clock pluckily held up three negroes at the point of a revolver. One of the negroes, Jesse Bradley, had entered Mrs. Dobbin's private apartment at Seventh and Hull Streets, and the other two, Nelson Exum and Spencer Wade were on the outside. Mrs. Dobbin held up the first with a revolver and sent in the alarm. Officer Wright promptly appeared on the scene and put the trio under arrest.

Matt Williams, colored, was put under arrest for being very drunk and very disorderly. When last seen he had stretched his length out on the floor of the lock-up and was enjoying streams of other drinks and other treats.

Officer Has Tussle.

Willie Drive, a notorious character, it seems, and a young colored man, were both put under arrest by Officer Smith. Drive, however, managed to break away, not in time though to escape the quick descent of Officer Smith's baton. The blow sent him reeling, and the evidence of his fall was made manifest by the connection with mother earth. Later on he mounted a horse and was proceeding to leave the town, but overcame by a desire to acquaint the world of his prowess in beating a negro and escaping a policeman. He was overtaken by Officer Wright, and nabbed in the nick of time. This time he didn't escape. Goode came quietly to the station, and was allowed back.

Daughter vs. Father.

Nellie, the thirteen-year-old daughter of Thomas A. Keatts, swore out a warrant against her father last night for mistreatment. She was standing on the street, when her father ordered her to get into the car. She refused, and he beat her unmercifully. Keatts, who is from North Carolina, has been in trouble before, has been behind the bars two or three times for a like offense.

TO DEPOSE WILLIAMS.

Other Faction Will Repudiate the District Chairman.

The "ins" faction of the Republican party of the Third Congressional District, headed by Marshal Morgan Treat, has called a meeting of the Congressional District Committee, to be held next Wednesday, at Ford's law building, in this city, for the purpose of arranging for a district convention to nominate a candidate for Congress. The members of the committee, who are calling the meeting, are: W. H. Brice, of New Kent, who is affiliated with the other faction; and James H. Hayes, a well known negro lawyer of this city. J. D. Thompson, the district member, has resigned. From this, it will be seen that the call for the meeting of the committee is signed by a majority of the members of the regularly recognized District Committee.

The feature of the meeting of the committee on Wednesday is an attempt that will be made to depose District Chairman Williams, against whom T. H. Smith, former postmaster of Manchester, has filed charges, and will ask his removal.

SERIOUS CHARGE.

Girl Alleges Young Man Drugged Her—In Jail.

Ernest Steiner, a car builder, who lives at No. 312 East Cary Street, is locked up in the Henric Jail, charged with drugging a girl. The girl, Carrie Goode, the fourteen-year-old daughter of Andrew Goode, of No. 1418 Taylor Street, Mrs. Goode, swore out a warrant on Friday for the arrest of the man, who was taken into custody by Officers Crowder and Brand. When arrested, he entered a bitter denial of having done wrong, and it was some time after he was lodged in jail that he realized that he was a prisoner.

He will be given a hearing before Judge Lewis to-morrow morning at 11 o'clock. Harry Glenn will defend the prisoner.

Telephone Service Cut Off.

Owing to some arrangement of the cable service, telephone communication over a large portion of the city, embracing much of the business district was yesterday cut off, and will probably not be restored before Monday. The area affected includes the business district between Seventh and Eleventh, Grace and between Seventh and Eleventh, Grace and the railway offices being within the realm of silence. In some way all the wires within one of the cables were rendered dead, presumably by water in the cable.

One Dead and Two Injured as Result of New York Row.

(By Associated Press.)
NEW YORK, July 23.—One man is dead, another may die and a third man has a slight bullet wound as a result of a row over a woman in this city yesterday.

Her name is Mary, who is under arrest, according to the police, has confessed that she shot the man to avenge an insult to his woman companion, Mary Whalen, who is held by the police.

The man who shot her is John Martin, a driver, Dennis Healy, a blacksmith, and Frank O'Brien, a printer, who are wounded, are at a hospital.

All the parties to the affair were residents of the upper East Side. According to the story told the police, the Whalen woman encountered Martin, Healy, O'Brien and a man named Kennedy near 100th Street and Ninth Avenue, early today.

Chiefly concerning the words of the Kennedy woman, she suddenly fired from across the street and began firing with a revolver. Three of the four men fell. Miller told the police that the woman shot the four men had insulted her and struck her over the head with a beer can. He then went out to avenge her, and finding the four men he says he "pumped them full of lead."

A BLAZE IN PETERSBURG

Splendid Work of the Firemen
Prevented Serious Con-
flagration.

THE LOSS AND INSURANCE

Cause of the Fire Is Not Known.

Supply Liens Against Pas-
senger and Power Co.

(Special to The Times-Dispatch.)

PETERSBURG, Va., July 23.—What threatened to be a very large and serious fire on Old Street, at the foot of Sycamore Street, at an early hour this morning, was prevented by the prompt and efficient work of the fire department. An alarm was turned in from box 26 at 8:30 A. M., and the several companies immediately responded.

The block of buildings extending from Old Market Square to the Dunlop tobacco factory is occupied almost entirely by hay, grain and provision brokers, all of whom had a large stock in the long side of Messrs. Heath and Company, which was stored in the building. It is said that when the fire broke out, the prospect was very ominous.

Fire was first discovered in the building No. 11 Old Street, immediately adjoining T. F. Heath and Company, rented by former article they had three hundred tons in stock. As the walls of these buildings were comparatively thin, the flames quickly spread to the side, and of one of the buildings, a hay, grain and oil, the fire raged fiercely for some time, but was confined to these three buildings, with the exception of some slight damage to the store on the corner, occupied by Mr. Patrick Rafferty, a commission merchant.

THE CAUSE UNKNOWN.
The fire originated in the storage house No. 11, of which T. F. Heath and Company are the owners. The cause of the fire is unknown. Captain John R. Patterson's merchandise brokerage office was on the first floor of the building, and the oil in the cellar, which had an insurance of \$1,000 on their stock, which will, about cover their loss. Captain Patterson's loss was very small.

The building was owned by Mrs. Thomas H. Woody, and was fully insured. Messrs. T. F. Heath and Company lost about \$5,000 on stock, with an insurance of \$4,000. The building owned and occupied by the Nelsons, who were insured in Chicago companies, and the insured amount of loss has not yet been ascertained. The building containing the merchandise of Messrs. T. F. Heath and Company is owned by Miss Anna Bolling and is fully insured. Mr. Patrick Rafferty's stock was much damaged by smoke and water, but the loss is covered by insurance. The fire department remained at work until nearly 1 o'clock this afternoon.

Spencer's Big Company.

(Special to The Times-Dispatch.)
SALISBURY, N. C., July 23.—A new organization, to be known as the Spencer Building Company, was launched at Spencer yesterday. The authorized capital of the company is \$50,000, and the object is to build business blocks, as well as residences for sale and rent, a great demand for such having sprung up at Spencer within the past few months. The cause of the great influx of residents is the erection of the mammoth shops of the Southern Railway at that point, which

are now nearing completion. Messrs. D. J. Miller, E. H. Stewart, B. F. Lively, Dr. J. W. Carlton and others are interested in the enterprise.

Perhaps the largest piece of machinery of its kind in the South is the new wrecking crane and car of the Southern Railway, which has just been brought to Spencer.
